TOWN OF MEREDITH

Report of the Trustees of the Meredith Public Library

To those familiar with our library the need of a card catalog has long been apparent, but lack of funds has hitherto made it an impossibility. Last July the work was at length begun under the direction of a trained librarian and is now nearly completed and will soon be accessible to the public.

The labor and expense involved has been considerable,but it is hoped that its eventual usefulness will make up for all temporary inconvenience

The smaller the library the more important it becomes that all its material be utilized. This can only be done by analyzing the contents of the books and making every bit of information available for the use of readers. This, a card catalog aims to do and the librarian will be glad to explain its use to those not familiar with the system.

The library has had a thorough overhauling, much worthless matter has been discarded and the books are now properly classified and arranged. A bulletin board has been placed in the reading room where lists of the new books will be found.

TOWN OF MEREDITH

Mrs. M. E. Blake, has furnished various periodicals for the tables and Mr. and Mrs. Charles Hewitt have given several books. Mrs. Susie Kimball, has also given a years subscription to the "Young Crusader".

The circulation for the year has been 13,770

Excess of debt over assets Feb. 15 1915	3,916 48
Increase in debt	$622 34

The increase in debt is accounted for as follows: By vote of the town $600 was taken from the Highway appropriation and used for State Maintenance. This left $3400 for Highways and Bridges. Under ordinary conditions more than the appropriations of $4000 is usually expended, and this year the heavy storms added nearly $1000 to the highway bills.

In Addition we paid the balance on the Town Hall piano, thereby saving 15.00, and paid a bill of $117. at the county farm, both items chargeable to the preceeding year.

The extension to St. James St., $300 also came from the Highway appropriation.

Through the untiring efforts of Mr A. B. Black, Sec.-Treas. of the Lake Association, our fish account was made a success. About 200,000 fingerlings were put in Lakes Waukewan and Winnipesaukee; steel-head trout in Waukewan, and Chinook and land-locked salmon and Rainbow trout in Winnipesaukee Great care was exercised in the feeding and transferring of trout and it is confidently expected that in a few years the fishermen will reap the benefit of our work

Much credit is due Mr. N. D. Morrison for his excellent care of the fish. No charge was made for the use of grounds and water supply. The work can be carried along now at a small expense as the dam and tanks are complete and the only cost would be for feeding the fish.

In submitting this report for the year ending Feb. 15, we have followed the uniform system of accounting suggested by the State Tax Commission. This coming year the town officers will have the uniform system of accounts, the books and forms for which have been ordered and received.

We feel that an explanation is due the citizens for the increase of liabilities over the assets as shown in this report as compared with that of last year.

We came into office with a balance of $228.35 in the treasury and the following bills due April 1st :

Dog Tax balance due schools	$ 179 34
Surveyors of 1915	1,406 18
Overdue interest on notes	421 23
	$2,006 75

This was in addition to the ordinary running expenses, for which there was no income available until the taxes were given to the Collector.

The Board of Selectmen have endeavored to keep within Appropriations and have been successful in every instance but that of Town Maintenance, for which we raised $4,000 in the March meeting of 1916. (Highways and Bridges) It has cost practically $2,000 to handle the snow since Feb. 15, 1916; in addition we faced the increased cost of labor and materials plus the severe rains of the early summer.

We have put the matter clearly before you in the report. We have paid all bills and interest to date. If careful pro-

vision is made for each department at our March meeting, there is no reason why the incoming town officers cannot materially reduce the debt in 1917.

The sidewalks have been recoated on nearly two thirds of the village The Main St. Concrete has been thoroughly repaired; permanent improvements have been made in Dis. 11 and Dis. 12 which will reduce the maintenance in 1917.

With the new road well started on Meredith Neck, in addition to other improvements, we feel that although the expense has been greater than we anticipated when the Highway and Bridge money was raised, the town has something permanent to show for its money.

Report of Trustees of Meredith Public Library

The past year has been one of quiet, but steady progress in our library work A new charging system was installed the first of July which makes it easier to keep track of the books. The circulation is the largest yet recorded, being fifteen hundred more than last year, and several new homes in remote parts of the town have been reached.

It is hoped that in the near future the library may be kept open a part of every day, thereby accommodating out of town patrons and making its resources constantly available. This would mean an increased appropriation, but the town could make no better investment or add more to its property valuation than in worthily maintaining a free library.

It must be borne in mind that the general high cost of living affects the library as well as everything else. Paper is now so expensive that the first cost of a book is more than formerly. The item of rebinding is considerable, owing to a large increase in binder's prices.

The circulation for the past year has been	15,353

SCHOOL REPORT

To the Selectmen of Meredith:

As the State Superintendent and the Tax Commission both suggest that a report be published according to their forms for the financial year, we submit the following to be printed in the Town Report.

Our report to the State Superintendent July 15th contains full statistics of the attendance for year from September to June, and we cannot readily furnish a report in the middle of the school year.

We would say, however, that we have endeavored to give all the scholars in town equal advantages. All elementary schools have kept thirty-three weeks during the year and there have been more rural schools required than formerly owing to more scholars in some sections.

Both schools on Meredith Neck have been open, the one on the Center Harbor road, on Ladd Hill, the Chemung School, Edgerly School, and Meredith Center School.

The High School has had a three year course the present year, and there are now eight tuition pupils coming from adjoining towns Only four are going from Meredith to other schools
